# Sycamore Logistics LLC - Text Messaging Consent form in Paycom onboarding (screenshot)

This is the Text Messaging Consent step that employees complete in our HR system, Paycom (login required; employees only), and sign electronically. It is shown here in Paycom's document preview. The consent checkbox starts **unchecked**; the employee checks it to agree. The full consent language and links to our Privacy Policy and Terms & Conditions appear at the point of consent. Messages go to the company-issued phone assigned to the employee, so no phone number is entered. The employee's name has been redacted.

Privacy Policy: https://www.sycamore-logistics.com/en/legal/sms-privacy · Terms & Conditions: https://www.sycamore-logistics.com/en/legal/sms-terms

**TEXT MESSAGING CONSENT**

Sycamore Logistics sends work-related text messages to the company-issued mobile device assigned to you for your shift. Messages include dispatch communications, safety alerts, and route and schedule updates. They are sent from Sycamore Logistics dispatch numbers to the company-owned phone number on the device you are issued. You do not need to provide a personal phone number.

☐ I agree to receive text messages from Sycamore Logistics LLC about my work (dispatch communications, safety alerts, and route and schedule updates) on the company-issued mobile device assigned to me. Message frequency varies. Message and data rates may apply (charges on company-issued devices are paid by Sycamore Logistics). Reply STOP to opt out or HELP for help. Consent is not a condition of employment.
